Mail Irregularities. There appears to be something manifestly wrong in the method of transmitting the mails across this continent, particularly as regards European newspapers, which calls for some FOR SYDNEY DIRECT. attention on the part of the Dominion posta authorities. The route by which the English mails are now forwarded is from Halifax to Windsor, thence through the United States via Chicago to San Francisco, and thence by G. H. HARRINGTON .. direct steamer to this port, or occasionally overland via Olympia. By the route above indicated we should at the very farthest receive our English letters and newspapers in 20 or 22 days ; but instead of such being the case, they do not as a rule reach their destination short of from 39 to 44 idays, or from 17 to 22 days behind time. Now there is clearly a fault somewhere, and we would direct the attention of the Postmaster General of the inion thereto, with a view to its speedy rectification. There certainly exists no good reason for such delay. Allowing nine days for the trip from Liverpool to Halifax, nine days from Halifax to San Francisco, and four days from San Francisco to Victoria, we ought to receive our English mails here in 22 days from Liverpool. Last weekly dates of English papers (2d August) arrived here Wednesday and Thursday, on the 10th September, 39 days from date of publication, with the exception of a few stray copies which came through accidentally by the United States mail, and the weeklies of the 9th of August will arrive here about the 25th September, or 45 days after publication That those papers are needlessly detained somewhere in their course of transmission across the continent, is very palpable from the fact that the Canadian and American pictorial papers, containing copies of illustrations from English papers, reach us not second to the fact that the Canadian and American pictorial papers, containing copies of illustrations from English papers, reach us not second to the fact that the Canadian and American pictorial papers, containing copies of illustrations from English papers, reach us not second to the fact that the Canadian and American pictorial papers, containing copies of illustrations and containing copies of illustrations are contained and containing copies of containing copies of conta tions from English papers, reach us not unfrequently from 10 to 14 days in advance of the papers from which they have been copied, and we frequently make extracts from our Canadian files of English news derived from English files two weeks before those same papers from which they made extracts from extracts from English files two weeks before those same papers from which they made extracts the second extracts of the second extracts tracts, arrive in Victoria. This is a matter which the proper postal authorities should which the proper postal authorities should inquire into, as well in the interest of British publishers, as in the interest of the people of this country, who are put to great-inconvenience by the non-receipt of their English correspondence at the proper time, as well as to respondence at the proper time, as well as to disappointment at not receiving their files of English papers until after much of the news Barrington Price, Esq. J. Kruger, Esq., J. Kruger, Esq., H. NICHOLSON, Secretary. which they contain has grown old and stale by having been published in American papers weeks before they reach their destination in this country. We can scarcely divest ourselves of the idea that our English newspapers are purposely delayed somewhere along the route for the very purpose of giving American journals an opportunity of anticipating the news which they contain, and thereby increasing the demand for American publications at the expense of their English rivals. Such sharp practice on the part of our neighbors is not always looked upon as disreputable, or beneath official dignity. There appeared lately a statement in the San Francisco Bulletin that the directors of the Pennsylvania railways had entered into a thorities would avail themselves, and have forwarded the English mail for the Pacific States via Halifax, Boston and St. Louis, instead of via Chicago, by which means they expected to receive letters in San Francisco in eighteen days from Liverpool, and would moreover avoid the snow-belt, which in the winter season francisch, which in the winter season francisch. winter season frequently obstructs communication across the continent. Why could not our Boglish mails be forwarded from Halifax by this route, instead of trailing them all through Canada, and being forwarded from Windsor? We think some such arrangement might be effected, and it would be a decided improvement upon the present roundabout and very unsatisfactory method of conveying

Honosep Sin :- We the undersigned respectfully request that your Excellency "will be pleased to present to each of us a Royal Grant of 160 acres of the best and most desirable farming lands in British Columbia free of all expense; and that you will be further pleased to erect thereon a new and commodious dwelling house with all modern improvements and conveniences, including a good pump in the kitchen and a bath room unstairs: and that you will in additon have all the land cleared, put under good fences, and well-ditched where necessary; and that you will furnish each farm with the mosimproved breeds of towls, bogs, sheep, cows and horses ; and that you will include in the grant twelve months' provisions, and money enough to pay a first-rate Chinaman one year's wages. We have not mentioned dogs, for there is such a variety of tastes with respect to this noble animal that we prefer to parchase them ourselves providing the Government will furnish in lieu thereof two dozen towels for the kitchen.

We specially request your Excellency to appoint the distinguished editor of the Colo-mist, and as his deputy the learned editor of the Mainland Guardian, to see that your instructions with respect to the Government's liberality in granting the prayer of the petitieners be faithfully carried out.

Permit us to remain your Excellency's obedient servants.
